What E-Space is Offering to the Educational Sector

Europeana Space is offering a wide range of services to the educational sector through its activities:

- 5 examples of creative re-use of digital cultural content for education
- a MOOC, Massive Open Online Course, to learn what you can do with digital cultural heritage, for your research, your studies, your classrooms
- 6 thematic Pilots developing prototypes, that can be utilized also for educational purposes

- thematic events on education and heritage
- a review of existing projects, en practices dealing with digital c in an educational context

The huge amount of digital cultural heritage available in many repositories on line is a wealth of material that you can engage with, and access to re-use for teaching and learning materials that you can assemble or develop on your own...
